Bertan Erman

Contact Details **+90 538 887 54 04** Berman22@ku.edu.tr linkedin.com/in/bertan-erman/

Third-year Mechanical Engineering and Economics double major at Koç University, with an Erasmus semester at the University of Mannheim. My internships gave me direct exposure to CNC operations, production routing, and process optimization. I am interested in applying my mechanical design and manufacturing skills in the automotive industry, where my economics background further supports cost-driven engineering and supply chain thinking.

Education

Erasmus Exchange Program, University of Mannheim — **Mannheim, Germany**
Exchange semester with a focus on economics and finance coursework, gaining international academic exposure and cross-cultural experience — Feb 2026 – Jul 2026

Mechanical Engineering, Koç University — **Sarıyer, İstanbul**
GPA 3.27/4 – Full Scholarship — 2022-

Economics, Double Major, Koç University — **Sarıyer, İstanbul**
GPA 3.27/4 – Full Scholarship — 2024-

Necmettin Erbakan Science Highschool — **Arifiye,Sakarya**
9109th on University Placement Exam — 2018-2022

Experience

Production & Process Engineer Intern, Sep 2025
Repkon Manufacturing
Contributed to machining and production processes, including CNC turning, milling, and 5-axis operations. Assisted process engineers in technical drawings, tooling strategies, and preparation of production routes. Observed the workflow from material selection and planning to manufacturing, welding, and quality control.

- Solidworks
- Espirit Edge CAM
- Production Routes

Reverse Engineering a Gasoline Generator, Oct 2024 – May 2025
Mechanical Engineering Design Class
Conducted mechanical design, assembly, finite element analysis, and motion simulation of a gasoline generator using Siemens NX, ensuring structural integrity and functional performance.

- Motion Analysis
- Simens NX
- Ansys

Assistant of Kerem PEKKAN, June 2023
Biofluidics and Cardiovascular Mechanics Laboratory Koç University
Contributed to data collection and particle flow analysis of artificial heart pumps

- Experimental testing
- Abaqus

Additional information

Languages Turkish (native), English (advanced), German (elementary)
TOEFL: 98

Achievements Anatolian Scholarship (2022)

Prof qualifications Siemens NX; Python; Ansys; SolidWorks; Excel; Esprit CAM

Interests Product Development; Team Sports (Football); Planning a trip; Communication
